1. The Recruiter Pay Scale applies to recruiters, teams leaders, and MGMT group leaders (hereafter to be referred to as: "leader") who are not the area director in an office.

2. Pay Level refers to the total FP+ (Families Protected + Upgrade PRMR/85) sold and funded during the sales season by a leader plus their downline. All accounts must be in the same MGMT group otherwise deductions of up to \$25 per \$85 of PRMR may apply. See the management group pay scale for details.

3. The Experienced Pay Level replaces the Pay Level when the MGMT group of which the leader and their downline are a part has 20% growth YOY in RkWS as of April 13, 2025.

4. Base Override Rate depends upon the funded growth rate of the MGMT group of which the leader and their downline are a part. Leaders who have more than 1 MGMT group will calculate growth rates separately, not as a combined rate.

5. The Personal Sales Bonus applies if the leader personally sells and funds either 100 FP+ or 140 FP+. Rollover FP+ and pay level bump incentives do not apply to hit these levels.

6. The Rookie Bonus applies only for funded rookie PRMR. A sales rep qualifies as a rookie if they have no prior seasons with 10 FP or more.

7. Average Override assumes 30% growth in the MGMT group, 140 personal FP+ by the leader, and 40% rookie FP+ in the payable funded group production.

8. Total Earnings assumes 30% MGMT group growth, 140 leader personal FP+, and 40% rookie PRMR. The leader will not earn overrides on their personal PRMR unless the leader plus downline (group) meets or exceeds 1,000 FP+. Total Earnings shown assume an \$85 average PRMR per FP. Actual earnings will be calculated as (((Earned Base Override Rate)+(Earned Personal Sales Bonus))*(Actual group PRMR))+(Rookie PRMR*Earned Rookie Bonus). Overrides for all subordinate leaders will be paid from the overrides of their direct leader.

9. Pay Level refers to the total FP+ of a leader plus their downline.

10. Total Monthly Residual per PRMR is the amount of residual earned per dollar of funded PRMR.

11. Total Monthly Residual assumes (Pay Level)*(Total Monthly Residual per PRMR)*(\$85 ave PRMR). Actual monthly residual will be calculated as (total group funded PRMR)*(Total Monthly Residual per PRMR). Residual earned by subordinate leaders will be deducted from their direct manager's residual. See the 2025 residual agreement for additional details.
