- The Pay Level is based on the total FP+ sold and funded in the sales season. FP+ is defined as funded families protected + (funded upgrades sold in the season PRMR/85) + (DTH leads closed by NIS * 0.5).
- The Experience Pay Level is earned by re-signing selling 2 FP+ by 12/31/24 or installed the following FP+ before 4/13/25: Rookie 3 FP+, Sophomore 7 FP+, and Vet 10 FP+.
- The Base Commission Rate increases based on the reps funded FP+. The commissions are calculated by taking the funded PRMR x the base commission rate. Reps are paid \$4 per dollar of funded PRMR upfront, and the remainder is reconciled on the backend.
- If the Rep funds at or above the 60 FP+ pay level the Rep will receive a rent bonus up to the lesser of the amount deducted for rent or \$3,250. If the Rep funds at or above the 200 FP+ pay level the Rep will receive a rent bonus equal to the lesser of the amount deducted or \$5,000. In order to receive the rent bonus on the October backend the Rep must fund at or above the 100 FP+ pay level.
- Payable RMR Adders:** Payable RMR is increased for the following:
 - \$1,799.99 Premium Kit:** Accounts will receive a \$2 PRMR adder when sold as a \$1,799.99 Premium Kit.
 - Financed Install Fee Adder:** If the financed install fee is \$199, the install fee is included in PRMR (\$3.32). If the financed install fee is \$299, the install fee will be included in the PRMR (\$4.98) plus a \$0.50 adder. If the financed install fee is \$399, the install fee will be included in the PRMR (\$6.65) plus a \$1.00 adder.
 - Upfront Install Fee Adder:** If the upfront install fee is \$199, the install fee is included in PRMR (\$3.32) plus a \$1.00 adder. If the financed install fee is \$299, the install fee will be included in the PRMR (\$4.98) plus a \$3.00 adder. If the financed install fee is \$399, the install fee will be included in the PRMR (\$6.65) plus a \$5.00 adder.
 - Upfront Payment:** When a rep collects an upfront payment from a customer either in the form of a PIF or a down payment they are eligible for an adder as shown in the table.
 - Protection Plan Service:** The Vivint Protection Plan RMR is **not** included in the PRMR, but will receive the applicable adder in the table above.
- Payable RMR Reductions:** Payable RMR is reduced for the following:
 - < \$1,799.99 Kit:** Accounts will receive a \$5 PRMR reduction when the starter kit is less than \$1,799.99 excluding 1) DIY accounts, 2) PIF accounts, 3) accounts with an APR greater than 0.0%, 4) accounts that have a credit limit less than \$4,000, or 5) accounts with at least \$3,000 of equipment installed by the sales rep.

- Low RMR Account:** When the base service fee is discounted below \$24.99 on the premium kit (\$1,799.99) or \$44.99 on a non-premium kit, a PRMR reduction equal to \$2 per dollar discounted will be applied to the account. Example: \$5 monthly discount * 2 = \$10 PRMR reduction.
- Waived Install Fee:** Install fees discounted below \$149 on a financed install or \$99 on an upfront install fee, will result in a \$10 deduction. The Install fee can be waived without a deduction on the following accounts: i) PIF accounts or down payment collected ≥ \$250, ii) accounts financed on a 36 mo. loan, iii) Pay-in-Four accounts
- Deduction Accounts:** The following accounts (if credit is run) will have a \$20 RMR reduction to the Payable RMR: 1) financed accounts with a credit score less than 650, 2) Paid-in-full accounts without a passing pre-qualification or prescreen, and 3) Smart Start accounts (DIY customers).
- 3rd Look:** Accounts financed under the 3rd look program will have a \$35 PRMR reduction. These accounts will require a down payment* equal to 25% (minimum of \$250) of the final hardware purchased (before taxes). If the down payment is not collected or manipulated the account will be unfunded or placed on hold. 3rd look accounts that do not require a down payment will not have the 3rd look deduction. However, if the credit score is below 650, they will be charged as a deduction account (\$20). If the account has a RIC exception it will not have the 3rd Look PRMR reduction. Only rookies will be paid upfront commission payments on 3rd look accounts. Otherwise, funded 3rd look accounts will be paid on the backend.
- Hardware Discounts:** When a hardware/installation fee discount is applied to an account, a PRMR reduction equal to the discount amount divided by 15 will be applied to the account. Example: \$300 hardware discount / 15 = \$20 PRMR reduction
- Moves:** If a new account moves before the second backend, a \$35 RMR reduction will be applied to the Payable RMR. Smart Start/DIY accounts are excluded from this deduction. Upgrades that move before with second backend will be unfunded.
- NIS Leads Closed by DTH:** Accounts that came from a lead set by NIS and were closed by DTH will have a \$10 PRMR deduction.
